Chapter 11

The renal system and associated disorders

Karen Nagalingam

Senior Lecturer, University of Hertfordshire, and Acute Kidney Injury Nurse Specialist Lister Hospital, UK

Further resources

Think Kidneys

https://www.thinkkidneys.nhs.uk/

This website provides a range of resources to support patients and professionals with information on kidney disease

National Institute for Health and Care Excellence (NICE)

These links provide guidance on many disorders. See below for specific links for items within this chapter.

Chronic Kidney Disease: https://www.nice.org.uk/guidance/cg182

Acute Kidney Injury: https://www.nice.org.uk/guidance/cg169

Urinary tract infection: https://cks.nice.org.uk/urinary-tract-infection-lower-women

Whether your study is in renal nursing or general field study, this link provides information with regard to treatment and care.

Journal of Kidney Care

https://britishrenal.org/education/journal-of-kidney-care/

This journal will be a valuable resource for students, whether you are a specialist nurse in the renal unit or a nursing student. Here you will find current issues in the care and treatment of renal patients.

Journal of Renal Care

https://onlinelibrary.wiley.com/journal/17556686

This is a valuable journal for students. Here you will find excellence in clinical practice and the journal provides up-to-date accessible, practical and information. From the articles written by experts, you should gain a good knowledge base and learn about evidence-based practice in renal nursing.

Fundamentals of Applied Pathophysiology: An Essential Guide for Nursing and Healthcare Students, Fourth Edition. Edited by Ian Peate.
